

After enactment and my filing on the "Do Not Call" list in New Jersey, my nuisance calls have went from at least one per day to maybe one per month. What a relief it is to no longer be afraid or hesitate to answer the phone now, or have to always check caller ID before answering a call. Additionally, I can now sit down at the dinner table every evening and NOT "expect" my phone to ring knowing it is most likely a telemarketer. Please do not change or repeal the current NJ Law regarding their "Do Not Call" list.
